SP-1915
File 81-1915
7-1-58

SUBJECT: Lack of Customer Acceptance on Articles 367 & 378

Article 367 was delivered from Burbank to [] in December of 1956. This article was the prototype for the "C" camera installation and was flown by LAC in a flight test program for several months. In July of 1957 it was returned to Bakersfield for removal of the prototype "C" configuration and installation of the production version. While at Bakersfield, it was decided to transfer this article to SP-1915 for the [] program. It has since been flown by the People in this program. It has never been accepted by FOG.
